Infineon Linux Wi-Fi driver (FMAC) release notes

Version 2026_0407

About this document

Scope and purpose

This document provides an overview and updates for Infineon's AIROC™ Wi-Fi – Bluetooth® combo devices for the Infineon Linux Wi-Fi driver (FMAC) (v2026_0407 release).

Intended audience

This document is intended for users configuring AIROC™ Wi-Fi – Bluetooth® combo device over a Linux-based environment.

Table of contents

About this document **1**
Table of contents **2**
1 Overview **3**
1.1 Release content 3
1.2 Device firmware revision details 4
2 Enhancement **5**
2.1 Key FMAC driver updates 5
2.2 Firmware updates 6
2.2.1 CYW55511 / CYW55512 / CYW55513 6
3 Documentation **7**
Glossary **8**
Disclaimer **9**

1 Overview

1.1 Release content

The Infineon Linux Wi-Fi driver (FMAC) release (v2026_0407) includes the following:

- FMAC Wi-Fi driver
  - ifx-wireless-drivers GitHub page
- Firmware and CLM blob
  - ifx-linux-firmware GitHub page

All the above files are also available on the Infineon Developer community.

Download the patches from the Infineon Developer community.

This document is intended to provide information on the following in the Infineon Linux Wi-Fi driver (FMAC) release (v2026_0407):

- FMAC driver updates
- Firmware updates for CYW55511 / CYW55512 / CYW55513

1.2 Device firmware revision details

Note: *Contact the local Infineon distribution channel (FAE or local sales representative) to get the latest hardware, NVRAM, and software files.*

Note: *Devices with firmware updated in this release are highlighted in bold.*

Table 1 Firmware revision details

Device		**Wi-Fi firmware version**
CYW4373	PCIe	13.35.205.100
	SDIO	13.10.246.356
	Industrial	
	USB	
CYW43439	SDIO	7.95.98
CYW43455	SDIO	7.45.286
CYW43012	SDIO	13.10.271.370
CYW43022	SDIO	13.34.107.154
CYW55571 CYW55572 CYW55573	PCIe	18.53.546.29
	SDIO	
CYW54591	PCIe	13.35.369
	SDIO	
CYW55511 CYW55512 CYW55513	**SDIO**	**28.10.590.15**

2 Enhancement

This section explains the updated features, enhancements, and fixes, along with known issues that may impact various devices.

2.1 Key FMAC driver updates

- Added bus_tuning controls for SDIO CRC/-110 recovery

2.2 Firmware updates

2.2.1 CYW55511 / CYW55512 / CYW55513

- CYW55511 – Single band 2.4 GHz
- CYW55512 – Dual band 2.4/5 GHz
- CYW55513 – Tri band 2.4/5/6 GHz

New features

- N/A

Table 2 WFA certification

Chipset	WFA program supported
CYW55513	11ax – R2, 6E MBO, OCE, OWE WPA3 (192 bits, TLS 1.3, PSK, SCV) 11n, 11ac, PMF, P2P, and vulnerability Forward compatibility

Table 3 WFA certification support fixes

Test plan	Supported test case	Description
N/A	N/A	N/A

Bug fix

- Fix for Incorrect RxRate report in 2G-STA mode
- [SoftAP] Fix for support up to 8 clients
- [SoftAP] Fix for WPA-PSK AKM getting dropped when more AKMs are added in IE
- Fix for firmware crash during 6E traffic

Regulatory updates

N/A

NVRAM updates

N/A

Known issues

- Combo COEX - notice UDP low throughput during BLE CIS and Wi-Fi co-ex scenario
- Third-party COEX - low Zigbee performance noticed in Wi-Fi RX throughput scenario

Note: Contact the module vendor or local Infineon distribution channel (FAE or local sales representative) for NVRAM updates.

3 Documentation

For more details on features and integration, see the following documents:

- **Wi-Fi software user guide**

  This document offers a comprehensive overview of the fundamental components that constitute the Linux 802.11 ecosystem to use Infineon's AIROC™ Wi-Fi – Bluetooth® combo solutions conveniently with a host of your choice and configure it based on your application.
- **Getting started with Wi-Fi & Bluetooth® combo chip on iMX8 Nano Developer's Kit V3 in Linux**

  This guide provides step-by-step instructions to configure the AIROC™ CYW5557x Wi-Fi & Bluetooth® combo chip on the host, to load the FMAC driver, and to establish a Wi-Fi connection between an AP/SoftAP and STA.

Glossary

Abbreviation	Extended Form
6E	Wi-Fi 6E
AKM	Authentication and Key Management
CLM	Country Locale Matrix
CRC	Cyclic Redundancy Check
IE	Information Element
MBO	Multi-band Operation
OCE	Optimized Connectivity Experience
OWE	Opportunistic Wireless Encryption
P2P	Peer-to-Peer
PMF	Protected Management Frame
PSK	Pre-Shared Key
SCV	Server Certificate Validation
TLS	Transport-Layer Security
WFA	Wi-Fi Alliance
WPA	Wi-Fi Protected Access

Important Notice
Products which may also include samples and may be comprised of hardware or software or both ("Product(s)") are sold or provided and delivered by Infineon Technologies AG and its affiliates ("Infineon") subject to the terms and conditions of the frame supply contract or other written agreement(s) executed by a customer and Infineon or, in the absence of the foregoing, the applicable Sales Conditions of Infineon. General terms and conditions of a customer or deviations from applicable Sales Conditions of Infineon shall only be binding for Infineon if and to the extent Infineon has given its express written consent.
For the avoidance of doubt, Infineon disclaims all warranties of non-infringement of third-party rights and implied warranties such as warranties of fitness for a specific use/purpose or merchantability.
Infineon shall not be responsible for any information with respect to samples, the application or customer's specific use of any Product or for any examples or typical values given in this document.
If this document is marked as 'Preliminary', 'Target', 'Draft' or 'Proposal', Infineon reserves the right to change all information given in this document at any time without notice. Subject to the development and release of a Product for series supply by Infineon, the technical specifications of the Product are set forth in the relevant datasheet provided by Infineon without such marking.
The data contained in this document is exclusively intended for technically qualified and skilled customer representatives. It is the responsibility of the customer to evaluate the suitability of the Product for the intended application and the customer's specific use and to verify all relevant technical data contained in this document in the intended application and the customer's specific use. The customer is responsible for properly designing, programming, and testing the functionality and safety of the intended application, as well as complying with any legal requirements related to its use.
Unless otherwise explicitly approved by Infineon, Products may not be used in any application where a failure of the Products or any consequences of the use thereof can reasonably be expected to result in personal injury. However, the foregoing shall not prevent the customer from using any Product in such fields of use that Infineon has explicitly designed and sold it for, provided that the overall responsibility for the application lies with the customer.
Infineon expressly reserves the right to use its content for commercial text and data mining (TDM) according to applicable laws, e.g. Section 44b of the German Copyright Act (UrhG).
If the Product includes security features:
Because no computing device can be absolutely secure, and despite security measures implemented in the Product, Infineon does not guarantee that the Product will be free from intrusion, data theft or loss, or other breaches ("Security Breaches"), and Infineon shall have no liability arising out of any Security Breaches.
If this document includes or references software:
The software is owned by Infineon under the intellectual property laws and treaties of the United States, Germany, and other countries worldwide. All rights reserved.
Therefore, you may use the software only as provided in the software license agreement accompanying the software.
If no software license agreement applies, Infineon hereby grants you a personal, non-exclusive, non-transferable license (without the right to sublicense) under its intellectual property rights in the software (a) for software provided in source code form, to modify and reproduce the software solely for use with Infineon hardware products, only internally within your organization, and (b) to distribute the software in binary code form externally to end users, solely for use on Infineon hardware products. Any other use, reproduction, modification, translation, or compilation of the software is prohibited.
For further information on the Product, technology, delivery terms and conditions, and prices, please contact your nearest Infineon office or visit https://www.infineon.com.
